

Requirements for aelf Public Testnet Code Audit Report

1. Audit Report Requirements

There is no restriction on the form of the audit report, but specific security issues must be described in detail. Each issue should include but is not limited to the following parts:

- 1) Title and necessary description
- 2) Reproduction steps and expected performance
- 3) Testing environment
- 4) Code review should include screenshots of the code.

2. Template for Writing About the Issues

DESCRIBE THE BUG

A clear and concise description of what the bug is.

REPRODUCE

Steps to reproduce the behavior:

1. Go to '...'
2. Click on '....'
3. See error

EXPECTED PERFORMANCE

A clear and concise description of what you expect to happen.

SCREENSHOTS

If applicable, add screenshots to help explain the issue.

ENVIRONMENT (please complete the following information):

- OS and version: [e.g. Ubuntu 18.04]
- Dotnet core version [e.g. 2.2.106]

ADDITIONAL INFORMATION

Add any other information about the issues here.
